A LIFE OF EXPERIENCE. NOW A CALLING TO GIVE BACK.

At 54, Dinesh Powale brings more than three decades of professional experience and a lifetime of learning about people, challenges, success, setbacks and transformation.

A Mechanical Engineer from Mumbai University, his corporate journey has taken him through organizations including **Mahindra & Mahindra, Bristlecone, Siemens, Deloitte and Accenture**, across roles ranging from Process Engineering, Procurement and Consulting to Program Management, Learning & Development and Solution Architecture.

His professional journey has also taken him beyond India to assignments in the **UK, Thailand, Malaysia and Saudi Arabia**, giving him the opportunity to work with people from diverse cultures, organizations and life circumstances.

But Dinesh's understanding of transformation comes from more than corporate success.

Alongside his professional career, he explored **entrepreneurship, sales and business development**, including co-founding and developing a renewable-energy venture for nearly a decade. His solar journey exposed him to the realities of creating opportunities, evaluating businesses, building partnerships, facing uncertainty and making difficult decisions.

Life itself provided some of his most important lessons.

Having experienced the **early loss of his parents, demanding phases of corporate life, career transitions, business challenges and the responsibilities of family life**, Dinesh developed a deep interest in understanding the human mind and our ability to remain stable, purposeful and positive even during difficult circumstances.

For more than **10 years**, he has been a serious student of **Rajyog**, exploring mind mastery, self-awareness, inner stability and Divine connection. His study of mindset, goal achievement and personal transformation has been complemented by learning in **Law of Attraction principles, Psycho-Neurobics and Emotional Freedom Technique (EFT)**.

He is a **Certified Transformation Coach from RISE Development Academy, Mumbai**, following an intensive 12-day coach-training program focused on tools, techniques and strategies for individual and group transformation.

He has also trained as a **DMIT practitioner** and has personally guided **close to 100 individuals** through conversations involving career direction, relationships, confidence, educational choices and difficult phases of life.
