

Dinesh Powale

SAP Solution Architect | SAP Career & Transformation Mentor

Helping professionals build successful, future-ready careers in SAP

With **three decades of corporate experience**, including approximately **20 years in the SAP ecosystem**, Dinesh Powale brings a rare combination of **business-domain experience, SAP consulting, solution delivery, program leadership and capability development**.

A Mechanical Engineer by qualification, Dinesh began his career in the automotive industry, working across **Process Engineering, Vendor Development, Procurement and SAP business-user roles**. His transition from core industry into SAP consulting gives him first-hand understanding of a question many professionals face today: **How do I successfully build and grow a career in SAP?**

Over the years, he has worked with leading organizations including **Mahindra & Mahindra, Bristlecone, Siemens, Deloitte and Accenture**, across SAP testing, implementation, support, program management, SAP solution assets, learning and transformation. His experience spans **SAP Procurement and Sourcing solutions including SAP MM, SRM, Ariba and S/4HANA**, along with broader exposure to enterprise SAP transformation.

His career has included both **onshore and offshore, client-facing and leadership roles**, supporting assignments and stakeholders across markets including the **UK, Thailand, Malaysia and Saudi Arabia**.

During the last **5+ years in SAP learning leadership**, Dinesh has led teams of up to **25 professionals** and has trained, guided or mentored **500+ SAP professionals**. His experience includes major capability-building initiatives such as **Process Expert Programs, Entry-Level SAP Training, Deep-Dive Programs and SAP Training Assessments**.

Today, as an **SAP Solution Architect and SAP Career & Transformation Mentor**, Dinesh combines decades of real-world experience with a passion for developing the next generation of SAP professionals.

His mentoring philosophy goes beyond choosing a module or completing a certification. He helps professionals understand **where the SAP market is heading, identify the right career path, build relevant capabilities, navigate career transitions and position themselves for long-term growth**.

From learning SAP to building a career in SAP.

Dinesh helps aspiring and experienced professionals turn SAP knowledge into a focused, sustainable and rewarding career journey.
